

CLOSE THE COVERAGE GAP

In Pitt County, **1 in 5 people** are without health insurance. Our state has the opportunity to provide coverage to those in the gap but continues to reject **\$4.9 million** a day to expand Medicaid.

The NC DHHS will hold a public hearing on their proposed plan for Medicaid Reform on Thursday, April 14th from 2-4 pm in the Emerald Ballroom of the Greenville Convention Center. This hearing will be an opportunity to ask that expansion be included in the plan for reform

Join us ahead of the hearing to learn more about the current state of Medicaid Expansion and how you can advocate to bring health care to 500,000 people.
